

# A comfortable and sustainable travel experience

The railway system in Austria is very well developed; in addition to fast national connections, you can take regional trains to the country's most picturesque villages.

## Need to Know

- ÖBB trains offer air conditioning, ample luggage racks, plugs for charging electronic devices, Wi-Fi and on-board restaurants (depending on train category). The ÖBB Railjet also offers a kids' cinema.
- Exclusive for First Class passengers, lounges at many railway stations allow guests to relax and enjoy a coffee while waiting. In First Class, Austrian specialities are served directly to your seat and complementary newspapers are available.
- Children under the age of 6 travel free; children between the ages of 6 and 14 pay half-price.

- You can purchase an ÖBB Sparschiene ticket at exceptionally low rates (as little as € 9).

## Best time to travel

All year round

## One Day in Austria

### Morning

Spend your morning exploring the baroque city of Innsbruck and head up the mountain by cable car directly from the city centre.

### Afternoon

Travel to Alpbachtal (less than 1 hour) and experience Alpine charm, fresh air and spectacular mountain views.

## Perfect for:

Everyone looking to travel with a view (marvel at lush valleys, mountain peaks and lakes passing by your window).

## Travelling times between major Austrian cities

**Vienna – Salzburg:**  
< 2.5 hours with ÖBB Railjet  
**Salzburg – Innsbruck:**  
< 2 hrs with ÖBB Railjet

## Two Days in Austria

### Morning

Head to Salzburg (just 2 hours). Discover Mozart's birthplace, filming locations for the "Sound of Music" and the historic city centre.

### Afternoon

Continue your journey to Zell am See-Kaprun (1.5 hours) to experience a unique combination of lake, mountain and glacier.
